

THE ADLER SCREENTYPER

Brings the world of Word Processing
into every office at an
affordable price

WORDS AT YOUR COMMAND

Screentyper allows errors to be corrected; characters, words, lines, sentences and even whole paragraphs or pages can be inserted or deleted.

Nothing need be printed until you are perfectly happy that it's correct.

Pages can be completely re-arranged and automatically numbered, with headings and footings, if you wish.

The benefit being that with the copy appearing on the screen you are able to see exactly how it will look on the page before it is printed out.

Screentyper gives you the benefit of genuine word processing with the ease of operation of modern electronic typewriters.

It gives you the ability to send standard letters to several addresses, with the name, address and any other specific information perfectly and automatically embodied in the text.

You can embolden, underline and centre text if you wish, it's all under your command with Screentyper

Screentyper has been designed specifically to be easy to use and operate because we realise that in today's modern commercial and industrial world a quick response is vital.

SPACE SAVED

Lost copy becomes a thing of the past with Screentyper because the text is safely stored on a small disk. To give you some idea of its capacity, a typical A4 page contains some 2000 characters — and nearly 200 such pages can be stored on one Screentyper floppy disk!

They simply stay there until you decide to erase them ending piles of paper having to be filed away.

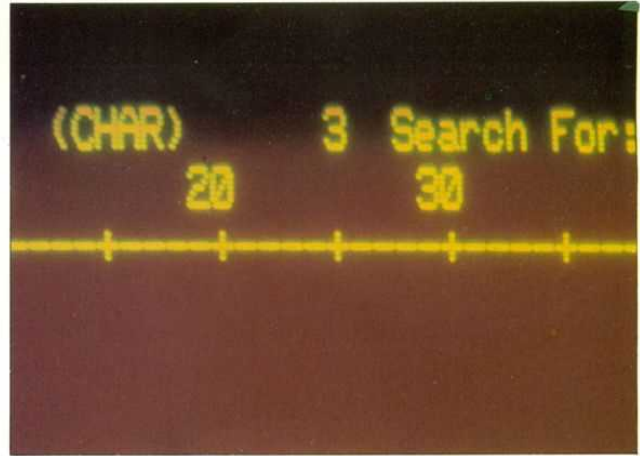

Once the Screentyper has read its program from the word processing program disk, the disk is then removed from the unit and replaced with one which can be used solely for text storage.

Other systems usually need to store part of their program on every disk used, reducing the free space available for text on each disk.

Menu Assisted

Designed to guide the typist, the menu allows the correct working mode to be selected and further course of action to be taken.

Screen Prompts

Screen prompts indicate the operating function, the Search function shown here is very useful for getting quickly to a particular point in a file.

Disk Storage

Screentyper is available with a standard disk drive capacity of 385,000 characters. An optional second disk drive doubles that figure.

This makes the screen slower to respond to instructions due to delays whilst more of the program is being loaded from the disk.

An optional twin disk drive is available which will give you double the storage.

Screen typer brings the world of word processing into every office. Most typists will find that Screen typer makes word processing as easy as typing, because it is. The stylish Screen typer unit simply connects to any Adler electronic typewriter and does exactly what its name suggests — everything you type appears on a screen instead of a sheet of paper.

HARDWARE

DISK UNIT

CPU Z80 A 4MHz
 64K RAM
 Real-Time Clock
 Double-sided 5.25" Double-density 400KByte diskette drive
 Serial RS232C (V24) Interface with baud rates to 9,600
 Fast memory-mapped video display interface
 Interface to Typewriter
 ASCII Keyboard Port

VIDEO DISPLAY

12 inch screen mounted in ergonomic swivel and tilt enclosure
 Orange P1 phosphor
 24 lines of 80 characters
 Several on-screen video attributes, which may be mixed:
 Boldface
 Underscore
 Inverse Video
 Accents (any of four accents on any character)

X-Ray to JEDEC 64D

Efficient switch-mode power supply

TYPEWRITER INTERFACE:

Bidirectional, logic seeking interface with print optimization gets the maximum possible throughput from the typewriter. Gives following attributes, which may be mixed:

True Bold (characters are retyped $\frac{1}{120}$ " apart)

Graduated ($\frac{1}{60}$ " spacing)

Overstrike

Underscore

Superscript and subscript

POWER REQUIREMENTS:

220/250V AC @ 50 watts

DIMENSIONS:

Depth: 275mm

Width: 370mm

Can attach to Adler 1005, 1011, 1020, 1030, 1035, 1040, 1041 typewriters

ELECTRONIC TYPEWRITER SPECIFICATIONS

ADLER SE 1005

Keyboard: 46 keys/92 characters

Paper Capacity: 42cm (16.5")

Ribbon Types: Carbon C, Carbon, Multi-Carbon, Fabric

Typestyles: Range of interchangeable typewheels available

Pitches: 10 and 12

ADLER SE1011/1020/1030/1035/1040/1041

Keyboard: 48 keys/100 characters

Paper Capacity: 42cm (16.5")

Ribbon Types: Carbon C, Carbon, Multi-Carbon, Fabric

Typestyles: Range of interchangeable typewheels available

Pitches: 10, 12, 15 and proportional spacing

SOFTWARE

Entirely memory-resident once initially loaded

Menu-driven — typist simply follows screen instructions

Uses all standard typewriter keys

STORAGE:

Text can be stored as a named disk file which can be copied, renamed and deleted. A directory of the disk shows its contents and how much space is left.

EDITING:

★ Text automatically formatted with word wrap-around

★ Full cursor movement by character, word, line, sentence, paragraph or block

★ Horizontal scrolling for wide documents up to 240 characters

★ Search with optional replace facility

★ Print screen facility for small items

Approved for 18% Investment
 Allowance plus 33.3% p.a.
 accelerated depreciation.

EDITING — cont.

★ On-line help screens always available

★ Multiple Rulers. Paragraphs can each be formatted differently, with different left or right margins and tabulator settings, each justified or not. Rulers can be stored hidden in the text

★ Justified proportional print

★ Background standard printing of any length of text

★ Directory and file functions available during editing

★ Today's date inserted in the text automatically. Text files dated when they are edited

★ Automatic display of page breaks on the screen

★ Continuous display of text just as it will print, even during insertions. Bold and underscored text displayed. Any character accented on-screen for foreign language versions

★ Tabs set and cleared using the standard typewriter keys. Tabbing both normal and decimal

★ Blocks of text highlighted for copying or moving

★ No limitations of memory size in text movement. Text files can be up to nearly 200,000 characters long (about 100 pages)

★ Up to ten user-defined place markers in the text

★ Margin release for margin notes

★ Protected spaces

★ Footings, headings and included text of any length

★ Mailmerge database makes updating of address lists easy. Up to five different address lists (or other data) from which selective items can be used to print standard letters

★ Enhanced, fast on-screen four-function calculator with memory and percentage calculation

PRINTING:

Text formatted to any page size

Optional right margin justification

Sub and superscript

Preview of printed work on screen available

Merge printing with data file

Auto page numbering, automatic headings and footings

Support for optional additional printer attached to the Screentyper

Proportional spacing on Adler 1011, 1020, 1030, 1035, 1040, 1041 and for suitable printers.

Communications program for text transfer between Screentypers using RS232C cable or Screentyper Modem.

OPTIONS AVAILABLE AT EXTRA COST

HARDWARE OPTIONS:

Second disk drive, doubling the total storage

Single sheet feeder for the typewriter

Screentyper modem

Draft-quality fast dot-matrix printer

Separate ASCII keyboard

SOFTWARE OPTIONS:

SPELLCHECKING PROGRAM. Comes with a 20,000 word dictionary that can grow as you "teach" it new words.

TERMINAL EMULATORS. Software can be supplied to emulate many popular computer terminals enabling Screentyper to be connected directly to micro, mini and mainframe computers for use as a "dumb" terminal.

ELECTRONIC SPREADSHEET — Data Analysis System.
